

Sing a New Song!

7-8pm, Wednesday Nights - Fall 2025

Sing a New Song! is a creative Northwest School of Discipleship course designed to encourage churches in the Portland area through evenings of robust spiritual singing and fellowship.

The class is open to all ages and aims to teach new songs to the churches, enhance fellowship between congregations, and connect Project Antioch students with a broad range of Christians in the Portland Metro Area.

Our teacher, Grant Long, is an instructor at the Texas Normal Singing School in Abilene, Texas and a member of the Keizer Church of Christ. Each evening Grant will bring a short message directly related to the importance of singing in the church's spiritual life.

With the help of the strong voices of the Project Antioch students, he will then teach a new song.

Each evening, a unique lesson and a different new song will be introduced. We invite you to join us this fall at various host congregations for new songs and messages weekly.
